

The 16th International Conference on Nucleocytoplasmic Transport

Dates: October 4 (Sun) - 9 (Fri), 2026

Venue: Awaji Yumebutai International Conference Center, Japan

Topics

- Nucleocytoplasmic transport factors and pathways, and regulation
- Nuclear pore complex (NPC) structure and dynamics
- Nucleoporins
- Nuclear envelope structure and function
- Chromatin organization
- Cell reprogramming
- Disease caused by dysfunction of NPC/Nucleocytoplasmic transport
- Infectious diseases (e.g., viral infections)
- Emerging technologies
- Others related to nuclear functions

HP: <https://www.nct2026.com>

Organizers:
Naoko Imamoto
Tokuko Haraguchi
Yasushi Hiraoka

Registration deadline: June 30, 2026
